Weekly Submission week 2

Team members:
James Little,
John Morrison,
Sandesh Bhattarai.

Submission date:
12Th April 2015.

<u>Things done this week</u>

Meetings:
7th April 2015.

Things discussed and done:
- Discussed about the project as a whole.
- Made schema for the database.
- Updated version control on each of our device (github).
- Made draft ER diagram.
- Developed final (subject to be edited or updated later) ER diagram in Visio.

Plan for next meeting:
- Conduct another meeting to discuss who will be working on what part.
- Install XAMPP on our machine before next meeting.
- Learn how to make a database before next meeting.
- Learn how to connect website with database before next meeting.

Sandesh Bhattarai will do weekly report submission until the end of the project.

All team members drew ER diagram roughly, and Johnathan Morison made the final ER diagram. We all agreed to his design.

James Little is setting up the project and will start implementation part.
